

TATTOO HEALING TIMELINE

+63 956 674 6358

ONE OASIS HUB 2

OPEN 24 HOURS

Days 1 -3

- The tattoo will be red, swollen, and may ooze a little ink or plasma.
- Keep it clean, moisturized, and protected.

Days 4 - 14

- It will start to scab and peel—this is normal!
- Do not pick or scratch at the scabs or flakes.

Days 15 - 30

- It will start to scab and peel—this is normal!
- Do not pick or scratch at the scabs or flakes.

Full Healing (4 - 6 weeks)

- Deeper layers of skin continue to heal.
- You can usually return to swimming and sun exposure (with sunscreen) after this point.
